Chalybeate Spring Water!

BOTTLED FROM

THE SPRING, AT KATAHDIN IRON WORKS, ME.

This water holds in solution a large proportion of Iron, with Soda Ash and a trace of Arsenic, and is an excellent tonic in cases of thin blood, enabling it to gain an impoverished blood to healthy state.

It is peculiarly adapted to relieve debilitated conditions of the urinary organs, and in many cases has completely cured persons who have tried many other medicines without any relief.

It can be taken at any hour of the day—but preferably before meals—in quantities from one half pint to a pint per day. It heightens the appetite and produces other changes that occur in taking Iron in any form.

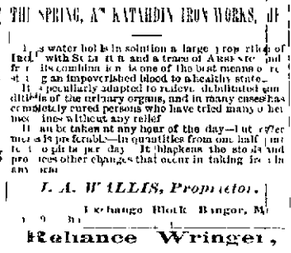
Money Cannot Buy It

For Sight is Priceless!



THE DIAMOND GLASSES,

Manufactured by J. E. SPENCER & CO., New York which are now offered to the public, are pronounced by all the celebrated Opticians of the World to be the MOST PERFECT, Natural, Artificial help to the human eye ever known.

They are ground under their own supervision, from minute crystal Pebbles, melted together and drive their name, "Diamond" on account of their hardness and brilliancy.

The Scientific Principle on which they are constructed brings the core of centre of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural healthy sight; and preventing all unpleasant sensations, such as following and wavering of sight, dizziness, &c., peculiar to all others in use.

They are mounted in the finest manner, in frames of the best quality, of all metals used for the purpose. Their finish and durability cannot be surpassed.

CAUTION.—None genuine unless bearing their trade mark and stamped on every frame.

Safe and Profitable.

THE

CENTRAL RAILROAD,

OF IOWA,

have now built and equipped in first class manner about

180 MILES OF RAILROAD,

which will complete their entire line with the exception of laying the track on twenty five miles which is already graded. They will thus open

THE FIRST THOROUGH LINE ACROSS THE STATE

from north to south, and by making a slight detour at one point, they will give

DIRECT COMMUNICATION BETWEEN ST LOUIS AND ST PAUL

This line of Railroad will have very special advantages for both local and through business. It selects such superior railroad connections as will secure to it a large portion of the carrying trade of the great Northwest. The

First Mortgage

7 Per Cent. Gold Bonds

which are issued upon this road, are limited in amount to $16 000 per mile (while many roads issue from $ 0 000 to $40 000) and are of real at 90 and accrued interest in currency. About two miles and a half of these bonds have already been disposed of, leaving but a small balance unsold which is being rapidly taken.

The most experienced financiers agree that First Mortgage Bonds, to a limited amount upon a finished railroad, which is well located for business are one of the very safest forms of investment.

Parties desiring to secure a first class security based upon a railroad practically done, and in the hands of leading capitalists who have a large company and business interest in its success, will do well to apply at the office of the Company or any of its advertised agents for a pamphlet and map showing the characteristics of the enterprise.

Holders of Government Bonds may exchange them for Central Bonds at a large present profit, and the bill and all amendments thereto shall be printed before the vote is taken on its final passage. The vote shall be by yeas and nays on each bill separately, and no bill shall become a law without the concurrence of a majority of the members elected to each house. No bill hereafter passed shall embrace more than one subject, and that shall be expressed in the title. And no law shall be revived or amended by reference to its title only, but the law revived or the section amended shall be inserted at length in the new act.

ARTICLE 14.

SEC. 1. The members of the Legislature shall receive for their services the sum of one hundred and fifty dollars for the first year, after the adoption of this amendment, and ten cents for each mile necessarily travelled in going to and returning from the seat of government, and thereafter such compensation as shall be prescribed by law, and no other allowance or emolument, directly or indirectly, for any purpose whatever, except the sum of fifty dollars per annum to each member which shall be allowed for postage, stationary, newspapers, and all other incidental expenses and perquisites. But no change shall be made in the compensation of members of the Legislature during the term for which they may have been elected. The pay and mileage allowed to each member of the Legislature shall be certified by the President of the Senate, and the Speaker of House of their respective branches, and entered on the journals, and published at the close of the session.

SEC. 2. The Legislature shall never grant to any corporation, association or individual the right to lay railroad tracks, or amending existing charters for such purpose.

Granting to any corporation, association or individual any special or exclusive privilege, immunity or franchise whatever.

For all other cases where a general law can be made applicable, no special law shall be enacted.

SEC. 7. The Legislature shall have no power to release or extinguish, in whole or in part, the indebtedness, liability or obligation of any corporation or individual to this State, or to any municipal corporation therein.

ARTICLE 15.

CORPORATIONS.

SEC. 1. No corporation shall be created by special laws, or its charter extended, changed or amended, except those for charitable, educational, penal or reformatory purposes, which are to be and remain under the patronage and control of the State, but the Legislature shall provide, by general laws, for the organization of all corporations hereafter to be created.

SEC. 2. All existing charters or grants of special or exclusive privilege, under which organization shall not have been in operation within ten days from the time this amendment takes effect, shall thereafter be void.

SEC. 3. The Legislature shall provide, by law, that in all elections for directors or managers of incorporated companies every stockholder shall have the right to vote, in person or by proxy, for the number of shares of stock owned by him, for as many persons as there are directors or managers, to be elected, or to cumulate said shares and give one candidate as many votes as the number of his shares of stock shall equal, or distribute them on the same principle among as many candidates as he shall think fit, and such directors or managers shall not be elected in any other way.

SEC. 4. The Legislature shall pass no law granting the right to construct and operate a street railroad within any city, town or incorporated village without requiring the consent of the local authorities having control of the street or highway proposed to be occupied by such street railroad.

RAILROADS.

SEC. 5. Every railroad corporation hereafter organized or doing business in this State under the laws or authority thereof shall have a public office or place in this State in which the transaction of its business shall be recorded. The books of such corporation shall be kept open for the inspection of its stockholders during business hours, and shall be annually, after the first year, on the first Wednesday of January, at which annual meeting the stockholders, or their proxies, shall have the right to vote according to the amount of stock owned by them, and directors shall be elected by ballot, and a majority of the whole number of votes cast shall be necessary to a choice. At such meeting all officers, agents and servants of the corporation may be removed from office, and all vacancies in the board of directors may be filled. Notice of the annual meeting, stating the time and place thereof, shall be published in the city or town where the principal office of the corporation is situated, or if there be no newspaper published therein, then in the nearest city or town in which a newspaper is published, at least thirty days before the day of election. The directors of every corporation shall annually make a report to the Secretary of State, exhibiting the amount of capital stock, the number of shares issued, the amount actually paid in, the value of the property, the amount of its liabilities, and such other matters relating to its business and condition as may be required by law. The directors of any corporation may make and enforce by-laws for the regulation of its business, not inconsistent with the laws of the State.

SEC. 6. The Legislature shall provide by law that the fuel and stationery furnished for the use of the State, the printing and binding of the laws and journals and all other printing ordered by the Legislature, with the material for the same, shall be let by contract to the lowest responsible bidder, but the Legislature shall fix a maximum price, and no member thereof or other officer of the state shall be directly or indirectly interested in such contract; but all such contracts shall be subject to the approval of the Governor and Council, and if disapproved by them, shall be let in such manner as shall be prescribed by law.

SEC. 7. No teacher, State, County, town or district school officer, shall be interested in the sale, proceeds or profits of any school apparatus or furniture, used or to be used in any school in this State with which such officer or teacher may be connected, under such penalties as may be provided by the Legislature.

SEC. 8. The Legislature shall have no power to authorize lotteries or gift enterprises for any purpose, and shall pass laws to prohibit the sale of lottery or gift enterprise tickets in this State.

SEC. 9. The Legislature shall not pass local or special laws in any of the following enumerated cases, viz:

For granting divorces.

Changing the names of persons or places.

Laying out, opening, altering and working roads or highways.

Vacating roads, town plots, streets, alleys and public grounds.

CONSTITUTIONAL AMENDMENTS

We publish to day the amendments to the State Constitution proposed by Senator Morse of Cumberland County They embrace a wide range of subjects, many of them of great importance and provide for several radical changes in the organic law Some of these propositions will commend themselves at once to general favor while others would probably elicit considerable discussion pro and con and we can only refer to them generally leaving our readers to examine the full text printed elsewhere Gov Perham in his message has suggested other amendments to the Constitution which are warmly advocated by many citizens, and other changes for improvement have been suggested in different quarters There is a natural reluctance to disturbing the fundamental provisions of time honored constitutions but the necessity to modify limitations and regulations established under vastly different circumstances from those of the present has [illegible] recognized and acted upon in other States and there are many strong arguments in favor of the adoption of amendments to our Constitution

[illegible] changes proposed, by Mr [illegible] and the varied character of [illegible] that will be urged [illegible] under discussion and [illegible] of an ordinary session [illegible] future would suffice for their [illegible] Changes if any, [illegible] be hastily made nor is it advisable [illegible] what could be better done [illegible] manner Amendments [illegible] upon the constitution, until [illegible] becomes encrusted [illegible] provisions adopted more or [illegible] influence of special circumstances [illegible] to obscure and confuse [illegible] principles involved, and it would [illegible] of alterations are desired [illegible] imperatively necessary, that the [illegible] itself should be revised furnish [illegible] organic law which should retain all [illegible] principles of the old with the [illegible] and alterations required by present [illegible] so introduced as to form a compact and harmonious whole

The propriety of submitting the discussion and framing of such modifications to a Constitutional Convention subject to ratification by the people has been urged and the suggestion has been received with general favor by the press Our own view would also be in favor of the consideration of such an important subject by a body of men specially chosen with a view to their qualifications for that specific task and whose deliberations would be free from the interruptions and distractions of a legislative session

The Farmers and Mechanics Life Insurance Company of New York, whose disaster was announced in yesterday's [illegible] admitted to do [illegible] Commissioner of [illegible] having refused [illegible] months since This [illegible] many people [illegible]

[illegible] the press which the [illegible] prospectus [illegible] frank expression from [illegible] conspicuously [illegible] hardly have deemed it [illegible] quoted the statement but [illegible] has selected it for publication [illegible] copy from its [illegible] testimonial of its character

[illegible] shows genius in crowding so much [illegible] into so small a space — [illegible]

The failure of the Home (fire) Insurance Company of New Haven is giving rise to ugly [illegible] other cities The Cincinnati [illegible] publishes statements which should [illegible] bodies of stockholders, and a [illegible] insured community into vigorous [illegible] action One company is reported [illegible] paid out ten thousand dollars [illegible] fifteen thousand dollars in premiums [illegible] is alleged to have evaded [illegible] to subscribed capital [illegible] the stockholders checks [illegible] and then handing back [illegible] rate of interest [illegible] expects that Cincinnati [illegible] better nor worse than other [illegible] could tell tales quite as bad [illegible] more of them When start [illegible] is known all over the country [illegible] trafficker in the insurance [illegible] guarantees against [illegible] like that of the Home Company [illegible] people to be inquisitive

The Democratic members of the Legislature [illegible] Tuesday evening at the State [illegible] for the purpose of nominating a candidate for United States Senator, to run against Hon Lot M Morrill, the republican nominee for the same position Hon George F Sewall presided, and James F Rawson acted as Secretary. Only one balloting was made as follows

Whole number of votes	17
Necessary to a choice,	9
R D Rice had	4
Abraham Sanborn,	9
Gorham L Boynton,	1
Joshua L Chamberlain	3

and Mr Sanborn was declared the nominee, which nomination was made unanimous.

A committee was then appointed by the chair to call future caucuses after which the caucus adjourned

Horace Greeley having received several letters alluding to the rumors of his probable appointment as one of the San Domingo Commissioners requesting appointments as interpreters &c, he replies to all in the Tribune as follows

My Dear Sir,—All I ever saw or heard of Gen Grant assures me that he has too much sense to think of sending me to San Domingo Thus far he has honored and gratified me by never suggesting to me that I could be more useful to the country or to his Administration in any other position than in that which I have filled to my own entire satisfaction for almost thirty years At all events, I assure you that I never thought of going to San Domingo—am not (I trust) wanted to go to San Domingo—and at all events, *won't go* to San Domingo Yours, HORACE GREELEY

ERIE RAILWAY DISBURSEMENTS In the case of John Thompson and others against the Erie Railway Co, to recover dividends claimed to be due for the year 1868, the plaintiffs claiming that the net earnings were $3,244,500 the Erie Co was ordered by the Court to put in a statement of the earnings and current expenses of the Co for 1868 It being claimed by the Company that the expenses were greater than the earnings, the Company's statement shows that the earnings were $14,414,654, and the expenses $16,-419,105 Among the items of expenses are paid Richard Schell to secure the withdrawal of Litigation, $429,250, paid Cornelius Vanderbilt, for like purpose, $1,000,000; legal Expenses, $334,276, Office and Station Expenses, $1,428,378.

Intelligence has just been received of the death at Jerusalem, early in December of two young ladies, daughters of President Woolsey of Yale College.

(signed), BISMARCK

Further explanations represent that the vessels were seized for fear the French would use them to land troops

CUBAN FILLIBUSTERING An Aspinwall letter states that General W A C Ryan of Cuban celebrity, took passage under the name of Ashbury on the Ocean Queen, from New York Dec 3d, after shipping 2000 cases of arms and ammunition Two or three hundred Cuban troops were expected to go on board as passengers, and when two days out, seize the steamer, land the troops and arms somewhere in Cuba, and then release her — Two hundred U S troops for San Diego, California, were on board the Ocean Queen, which so alarmed the Cubans that they did not embark and Gen Ryan went to Aspinwall alone landed the arms, etc, and awaited the arrival of the steamship Hornet On Christmas day a collision occurred between a small party of Cubans and about 200 Jamaica negroes, originating from a display of Cuban flags from Bethan Court House and the barque Harriet Lane The negroes hoisted the British flag, which was promptly captured, and a general fight took place, in which knives, etc were freely used Some 20 persons were seriously injured By the intervention of Gen Ryan the disturbance was quelled and the negroes retired

In the speculations as to the Committees in the next House of Representatives, it seems to be accepted that Mr Dawes is to remain Chairman of the Appropriation Committee, that Gen Garfield is to take the Ways and Means, and that Mr Hooper is to be Chairman of Banking and Commerce, while there seems a least a possibility that the Military Committee may fall to Gen Butler

The question as to whether Congress will repeal at the present session, the law requiring the assembling and organization of the new Congress on the 4th of March, may be regarded as settled The feeling among members is so generally in favor of the law as a safeguard against outr agencies, that probably no effort will be made to repeal it

DR SCHENCK ADVISES CONSUMPTIVES TO GO TO FLORIDA IN WINTER.
Having for the last thirty-five years devoted my whole time and attention to the study of lung diseases and consumption I feel that I understand fully the course that ought to be pursued to restore a tolerably bad case of diseased lungs to healthy soundness The first and most important step is for the patient to avoid taking cold and the best of all places on this continent for this purpose, in winter is Florida well down in the State, where the temperature is regular and not subject to such variations as in more northern latitudes Palatka is a point I can recommend A good hotel is kept there by Peterman Last winter I saw several persons there whose lungs had been badly diseased but who under the healing influence of the climate and my medicines were getting well
One hundred miles farther down the river is a point which I would prefer to Palatka as the temperature is more even and the air dry and bracing Mellonville and Enterprise are located there I should give a decided preference to Mellonville it is two miles from river or lake and it seems almost impossible to take cold there The tables in Florida might be better and patients complain at times, but that is a good sign as it indicates a return of appetite and when this is the case they generally increase in flesh and then the lungs must heal
Jackson ille, Hibernia, Green Cove and many other places in various parts of Florida can be safely recommended to consumptives in winter My reasons for saying so are that patients are less liable to take cold there than where there is a less even temperature and it is not necessary to say that where a consumptive person exposes himself to frequent colds, he is certain to die shortly therefore my advice is go well down into the State out of the reach of prevailing east winds and fogs Jacksonville, or almost any other of the localities I have named will benefit those who are troubled with a torpid liver and disordered stomach deranged bowels sore throat or cough but for those whose lungs are diseased a more southern point is earnestly recommended
For fifteen years prior to 1869 I was professionally in New York Boston Baltimore, and Philadelphia every week where I saw and examined on an average five hundred patients a week A practice so extensive embracing every possible phase of lung disease has enabled me to understand the disease fully and hence my caution in regard to taking cold A person may take vast quantities of Schenck's Pulmonic Syrup Seaweed Tonic and Mandrake Pills, and yet die if he does not avoid taking cold
In Florida nearly everybody is using Schenck's Mandrake Pills for the climate is more likely to produce bilious habits than more northern latitudes It is a well established fact, that natives of Florida rarely die of consumption especially those of the southern part On the other hand, in New England one-third at least of the population die of this terrible disease. In the Middle States it does not prevail so largely, still there are many thousands of cases there What a vast percentage of life would be saved if consumptives were as easily alarmed in regard to taking fresh colds as they are about scarlet fever small-pox &c! but they are not they take what they term a little cold which they are credulous enough to believe will wear off in a few days They pay no attention to it and hence it lays the foundation for another and another still until the lungs are diseased beyond all hope of cure.
My advice to persons whose lungs are affected even slightly is to lay in a stock of Schenck's Pulmonic Syrup Schenck's Seaweed Tonic and Schenck's Mandrake Pills and go to Florida. I recommend these particular medicines because I am thoroughly acquainted with their action I know that where they are used in strict accordance with my directions they will do the work that is required This accomplished nature will do the rest. The physician who prescribes for cold cough or night sweats and then advises the patient to walk or ride out every day will be sure to have a corpse on his hands before long
My plan is to give my three medicines in accordance with the printed directions, except in some cases where a freer use of the Mandrake Pills is necessary My object is, to give tone to the stomach—to get up a good appetite It is always a good sign when a patient begins to grow hungry, I have hopes of such. With a relish for food and a gratification of that relish comes good blood and with it more flesh which is closely followed by a healing of the lungs—then the cough loosens and abates the creeping chills and clammy night sweats no longer prostrate and annoy and the patient gets well provided he avoids taking cold
Now there are many consumptives who have not the means to go to Florida. The question may be asked Is there no hope for such? Certainly there is My advice to such is, and ever has been to stay in a warm room during the winter with a temperature of about seventy degrees which should be kept regularly at that point by means of a thermometer Let such a patient take his exercise within the limits of the room by walking up and down as much as his strength will permit, in order to keep up a healthy circulation of the blood. I have cured thousands by this system and can do so again. Consumption is as easily cured as any other disease, if it is taken in time, and the proper kind of treatment is pursued. The fact stands undisputed on record, that Schenck's Pulmonic Syrup, Mandrake Pills, and Seaweed Tonic have cured very many of what seemed to be hopeless cases of consumption. Go where you will, you will be almost certain to find some poor consumptive who has been rescued from the very jaws of death by their use.
So far as the Mandrake Pills are concerned everybody should keep a supply of them on hand They act on the liver better than calomel, and leave none of its hurtful effects behind. In fact, they are excellent in all cases where a purgative medicine is required. If you have partaken too freely of fruit, and diarrhoea ensues, a dose of the Mandrakes will cure you. If you are subject to sick headache, take a dose of the Mandrakes, and they will relieve you in two hours If you would obviate the effect of a change of water, or the too free indulgence in fruit, take one of the Mandrakes every night, and you may then drink water, and eat watermelons, pears, apples, plums, peaches, or corn, without the risk of being made sick by them They will protect those who live in damp situations against chills and fevers. Try them. They are perfectly harmless. They can do you only good.
I have abandoned my professional visits to Boston and New York, but continue to see patients at my office, No 15 North Sixth Street, Philadelphia, every Saturday, from 9 A M, to 3 P M. Those who wish a thorough examination with the Respirometer will be charged five dollars The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not. But I desire it distinctly understood, that the value of my medicines depends entirely upon their being taken strictly according to directions.
In conclusion, I will say, that when persons take my medicines, and their systems are brought into a healthy condition thereby, they are not so liable to take cold; yet no one with diseased lungs can bear a sudden change of atmosphere without the liability of greater or less irritation of the bronchial tubes.
Full directions in all languages accompany my medicines, so explicit and clear that any one can use them without consulting me, and can be bought from any druggist.

FORTY-FIRST CONGRESS

THIRD SESSION.

WASHINGTON, Jan 11

SENATE

The House concurrent Resolution for the appointment of a joint committee on all ocean cable legislation was debated upon a motion of Mr Chandler to refer it to the committee on foreign relations Mr Sumner summarizing the result of that committee's action on the various propositions before it said that among other bills now pending which had been reported by that committee, was a general measure for a code regulating ocean cables the substance of which was sketched by their late associate Mr Fessenden There were also several other special bills, one for a cable from San Francisco to Japan, which has been considered many days by the committee He doubted the expediency of taking all these matters at this late stage of the session from the charge of the committee which had specially considered them.

Mr Williams advocated a joint special committee as necessary to an intelligent understanding by Congress of the pending conflicting propositions The subject by consent was finally laid over without action until to-morrow Mr Revels offered some remarks upon a bill to aid in the repair and construction of the levees in Mississippi The bill was referred to the committee on agriculture The Senate resumed the consideration of the resolution as amended by the House, for the appointment of a commission to San Domingo The question being upon Mr Sumner's motion to amend the House amendment adding thereto and the commissioners shall inquire especially into the alleged dependency of civil war in Dominica, the state of the territory occupied by the opposing parties also to the relations between the existing government of Dominica and the neighboring republic of Hayti and the pending of any claims territorial or pecuniary by the latter upon the former and whether any war now exists or is menaced between these two governments Mr Saulsbury moved a further amendment to add and providing further that Benjamin F Curtis, Millard Fillmore, and General W T Sherman shall be the commissioners

HOUSE

Mr Kelsey of N Y from the Com on Appropriations reported the Diplomatic and Consular Appropriation Bill, which was made the special order for Friday next The bill appropriates $1 488 347

Mr Wilson of Ohio, from the Com on Agriculture reported a bill to procure and disseminate information as to the extent of the cereal crops in other countries, requiring such information to be furnished by the U S Consuls

Mr Wilson also reported a bill to prevent cruelty to animals while in transit by railroad or other means forbidding cattle to be confined in railroad cars longer than 28 consecutive hours without unloading to give the cattle water and feeding for at least five consecutive hours except prevented by contingencies He explained that the bill did not apply to steamboats where arrangements are made to feed and water cattle.

Mr Eldridge of Wisconsin questioned the propriety and constitutionality of the bill and suggested that the bill should be referred to the Judiciary Committee

Mr Wilson argued that the bill was directly within the scope of the provisions of the Constitution which gave to Congress power to regulate commerce between the States—the bill only referred to railroads which form connecting links between the States and was therefore constitutional He moved the previous question on a vote by tellers. There were only 104 members voting which lacked a quorum On the second vote the members ... many members being attracted to the Senate Chamber by the Dominica debate

A motion to adjourn was then made but failing, the vote on it by yeas and nays.

The Speaker laid before the House a telegram from Gov Geary of Pennsylvania announcing the death at Harrisburg, this morning, of John Covode a Representative from Pennsylvania and speaking of him as a good citizen, a valuable and faithful public servant and true patriot

Mr Washburn of Wis, moved an amendment appropriating $41 000 for completion of the work at Desmoines Rapids and Mr Calkin of N Y another which was rejected appropriating $150 000 for improvement of navigation at Hell Gate New York and Messrs Conger Meyers and other members objected to singling out any particular work at this time

Mr Sheldon of La argued in support of the appropriation

Mr Starkweather of Ct opposed the bill and amendment, and argued that works of great importance was in operation in various parts of the country

After further debate, in the course of which Mr Garfield of Ohio said the value of commerce on the Ohio last year was $750,000 000, by $10 000 000 less than the entire foreign commerce of the United States

The Des Moines amendment was agreed to and the bill laid aside to be reported to the House

The committee then resumed the Legislative Executive and Judicial Appropriation bill

A debate then sprung up on the proviso repealing the existing law, which permits the public printer to furnish at cost extra copies of all Congressional documents

Mr Sargent of Cal gave an illustration of the fraudulent manner in which that privilege was used A paper in Carson City Nevada which was authorized to publish laws of Congress on an advertisement procured from Washington a sufficient number of pamphlet copies and distributed them among its subscribers

Mr Jenckes of R I approved of the course of the Nevada paper, and wished it was generally followed instead of publishing the laws in newspapers

The practice was also defended by Messrs Lynch and Lafling and opposed by Mr Dawes

The clause was adopted, with an amendment by Mr Jenckes requiring payment of 10 per cent additional to the cost of printing

Without further progress on the bill the Committee rose and the House passed the Louisville & Portland Canal Improvement bill

The Speaker announced the following named gentlemen as a Committee to attend the funeral of John Covode

Messrs Van Horn, Phelps, Beatty, Gilfillan, Axtel, Getz and Root.

A resolution was adopted directing the Committee on Agriculture to inquire whether any legislation was necessary more effectually to prevent or restrict the introduction and distribution of diseased cattle into and thro' States and Territories

WASHINGTON, Jan 11

The suit of Ex Treasurer Oliver of Mass, against the Liverpool & London Life and Fire Insurance Co, for injunction against the Co until they paid State tax of 4 per cent. on their premiums of 1864, was before the Supreme Court yesterday R. R. Curtis and J G Abbott appearing for the Co, and Attorney General Allen, of Mass, for the State. The Company repeated the defense previously offered in Court below It is contended that as they are not a Corporation under English law they cannot be regarded as such by laws of other countries, to this the State answers that while it is true that such Companies are not corporations under British laws still as they have conferred upon them all the essential qualities and privileges of corporations they are such in fact and must be so held in our Courts

U S Consul Duncan of Naples, writes—"orders have recently been issued by the authorities that vessels laden with Petroleum for Naples must discharge their cargoes at Nisita, a small port 4 or 5 miles west of Naples, unprotected from high winds and dangerous to approach during storms, and also quarantine for Naples.

There is authority for saying all rumors since the resignation of Secretary Cox of Cabinet changes, are without a particle of foundation Every member seems to be thoroughly satisfied with all the others.

UNION INSURANCE COMPANY *Mr. Editor* Allow me correct an error in your statement of the doings of the Stockholders of the Union Insurance Company at their annual meeting on the 9th inst. This Company was organized eight years ago, and its first President was George Stetson, Esq., who served as such until a year since, when Capt. McGilvery was chosen; consequently instead of having held the office of President "for a long time," he had held it but one year.—While the resolve passed by the Stockholders is a deserved and true expression of the appreciation of Capt. McGilvery's services, it is but just and proper to say that under the administration of Mr Stetson the Company ... year by year ... reputation ... prudence and ability ... as a business man.

Jan. 11, 1870. DIRECTOR.

—Judging by the number of tickets sold, Prof Stone will have a crowded house at his benefit in City Hall this evening We are informed that some truly astonishing original conundrums have been handed in for the prizes, and the reading of these "home productions" will create a great deal of amusement. Prof Stone will repeat some of his best experiments in biology, which have created so much astonishment wherever he has exhibited them In older times his wonderful control over the minds and bodies of others would have secured him a death at the stake, as a "man possessed of ye black art," but now people treat such things in a more liberal spirit, and though unable to explain them, accept them as undeniable facts Prof Stone has made many friends here, who will be glad to show to-night their appreciation of his efforts to instruct and amuse the public

CONCERT The attendance at Norombega Hall last evening was not so large as it should have been, for the concert deserved a crowded house Yet, a fair sized audience was present, every person of which was more than satisfied if we may judge by the hearty applause which greeted each piece Mrs Staples was never in finer voice, and her singing last evening excelled, we think, all her previous efforts in public This was her last appearance before her departure for Europe, whither she goes to perfect herself in her chosen art Her many friends will wish her every success and warmly greet her return Her solos last evening were a Cavatina from Ernani, and a Scherzo Valse by Badia and in response to enthusiastic encores she sang 'Home, Sweet Home," and "Robin Adair" Mr James Fessenden of Boston, who made his first appearance before a Bangor audience, was well received and highly commended He has a very fine tenor voice which showed to much advantage in the pieces he sang and he was several times encored Of Mr Dow's ability as a pianist we need hardly speak, as with most of our readers he is an old favorite His piano solos were most brilliantly executed, and his accompaniments perfect

SAFE INVESTMENTS The preference of cautious men to invest their money in first class securities of corporations near home the prosperity of which they can observe fully and which they can "keep the run of" continually, is shown in a marked manner by the rapid sales made of Maine Central Railroad Bonds The "Currency 7s" had not been advertised in this paper two weeks before all offered were sold and orders amounting in the aggregate to a quarter of a million dollars received which could not be filled Holders refuse a liberal advance over the price at which they were sold here, preferring to retain them as an eminently good investment, and parties who purchase the "7s" and those who were unable to secure them, are now purchasing the 6 per cent Gold Bonds issued by the Maine Central Railroad, which are sold at a price that now produces the same return of interest as the others The security of the investment is ample and unquestionable The demand for these gold bonds is rapidly depleting the number remaining for sale, and parties seeking safe securities for investment will do well to apply for them soon either personally or by letter, to Elias Merrill Esq First National Bank, Bangor

The steadily increasing business of the Maine Central and its sure prospect of continued success, is a gratifying indication of the prosperity of the State, of which it is the chief business thoroughfare

England is gradually approaching America If the process which has been going on for many hundreds of years continues unchecked for as many thousands the inhabitants of the State of Labrador may look across the gradually narrowing waste of waters in the year of our Lord 11 871 and see the west coast of England so near that the Atlantic will be reduced to a strait It is a well known fact that the sea is encroaching slowly upon the east coast of England, and that on the west the land is gaining on the sea The latest start ling instance of this is a landslip at Whitby a town on the sea to the north of Scarborough The people living under what is known as the East Cliff late one night in December last were rudely aroused from their slumbers by the cracking of walls and ceilings which told them that their real estate was about to be conveyed in a manner extremely unsatisfactory to the owners The alarm spread and by moonlight the people prepared to remove their goods The mass of earth moved steadily but slowly and the next night it had come to a rest, and a large part of the village and the whole of the village graveyard having been pushed out to sea where the waves were tearing to pieces the frail houses and preparing their forces for a new attack on the cliff Fortunately the motion of the caving earth was so slow that there was no loss of life, but the destruction of property was great. It is eighty three years since a similar slip occurred near Whitby, but elsewhere on the coast the progress of the sea has been greater and not less perceptible because unmarked by extensive caving, like that which has just taken place On old York shire maps are still to be seen beyond the present coast line, the names of a dozen places lost in the sea, and authentic records exists that Hornsea now a coast town was once ten miles inland A similarly hostile movement of the ocean is destroying with irresistable attacks a portion of the coast of our own beloved New Jersey

THE MONARCH OF ADVERTISERS —What an Enterprising Doctor made by a Judicious use of Printers Ink—Helmbold's Princely Turnout

Helmbold's big sleigh was out in the Park yesterday, with a load of Judges and Generals A SUN man, meeting the Doctor asked him how much the bells cost

'They're gold plated There are 318 of them They cost me $970" answered the little giant of the medical world

On further inquiry the reporter learned that the harness cost nearly $4 000, and the buffalo robes $1,800 Thinking that a man with such a turnout ought to be worth something, the reporter come down town and hunted up the Doctor's assets. He found them to be as follows

Five story brown stone store 594 Broadway	$200 000
Stock in store	100 000
Private residence	60 000
Furniture in private residence	25 000
Stable	30 000
Horses carriages sleighs harness robes and the finest turnout in the world	35 000
Stores at Long Branch	60 000
Hotels at Long Branch	35 000
Cottages at Long Branch	25 000
Furniture in cottages	10,000
Land in Long Branch	120 000
Stock in his Philadelphia laboratory	150 000
Total	$845 000

The reporter learned that the Doctor owns in addition to the above, several lots on Madison and Fifth avenues, and some on the Boulevards. The reporter was assured that there was not a pencil mark against all this property. The Doctor's business is immense The orders have reached $30,000 and $40,000 in a single day Seven years ago he came to this city with $20,000 in his pocket. Now he is worth his millions, and spends as much money as any man in the city

"How did he make his money?" asked the reporter of the Doctor's agent.

"Through advertising liberally in the newspapers," was the reply, "same as Bonner, Smith & Street, Ayer, and Jayne"

The Doctor is advertising in 3,150 newspapers. He buys his own merchandise, and contracts for his advertising in such a manner that he is prepared to discount at seven per cent. per annum any obligation that may be presented. The Doctor is emphatically a self-made man.

He has a special fondness for yachts, and is spending large sums of money in procuring models of the Dauntless He proposes to decorate his drug store with these models. New York Sun.]

MIGHT AND RIGHT—A DIALOGUE

NEW YORK

Ere Might and Right met face to face,
My friend, in seeking for a place
To fight on by landmarks a goodly space
A view of battle-fields from the stranger's land

Pray tell me, quoth Might with spear and sword
Of all the world do you stand my people's gain,
Have men tongues my sling to the Lord
Is the list of steads mine fair Lorraine

Right laid down his head Bismarck to do my will
Will be all his swords and blood on his pate
Life lets Moltke calm and still
Wreath gleams with meshes of men

Might to fight in the fury of wrath
I will my foes with a high foot
Will shall be pain to me or bar my path
I will wear it as the sword of God?

Right freedom
Asking of the proud and patient folk
Would you by power to guard your Rhine
And hold it with ironclads and broken oak
Its swollen waters but the edge wax mine

Can I tell you children to serve your will?
Shall the sword's thirst make to a yoke again
Of plain for our mills may take their fill
Earth's best wear wife for the souls of men

Might when I turn with fire and sow with salt
Into a fire in Rhine to Seine
Hope and fear shall where your arables halt?
Nay, brain chains and you thought is vain

Right as your arches are split and the storm is done
By the still rivers that know I rule, he day
Men's war fury hath quenched the sun

Might Roman Peters in their path
Left their thirst for me who laid bent of drum
Even in the Dark Continent
Where I am and I reign to come

How a Horse Bishop was Caught

The San Francisco correspondent of the Chicago Tribune writes

The finest and largest "beast" we have had to boast of lately, was a gorgeously dressed and most dignified looking personage with a flowing beard black eyes, slightly hooked nose and tawny complexion, who made his advent here some weeks since as the Catholic Bishop of Persia, travelling to make known the wants of his people, and collect money for the erection of churches, colleges, and religious school buildings in Asia. He was got up in up without regard to expense, in turban and flowing robe, and drew a crowd after him whenever he appeared on the streets, even in cosmopolitan San Francisco where we are used to the sight of men from all the world and a novel costume seldom calls for more than a passing glance from the people on the streets. He preached with acceptation in the French Church of Notre Dame, and collected funds from many churches and many pious Catholics throughout the city But one day he came to sudden grief He made an appointment to preach at the Church of St Ignatius, on market street, and a very large congregation had gathered to listen to him The congregation waited long and still the Persian Bishop did not make his appearance At length a Jesuit Father came forward and conducted the services, and the congregation went its way, supposing that some accident had prevented the Bishop of Persia being there to officiate as promised An accident had occurred He had been introduced to a Jesuit Father who had studied Persian a little at the College of the Propaganda, at Rome, and the fact that this worderful Persian, who had been beaten with many stripes in his youth for abandoning the Mahometan faith and becoming a Catholic, did not speak a word of the language of his native land was discovered He fell back on the "syrup," and was caught again Then he had a call to go out for a few minutes, and never came back The Fathers investigated the matter It was discovered that the sentences which he had written for the edification of the Sisters of Charity and others, stating that they were Chaldaic, were modern Hebrew in fact, and, to make a long story short, the fellow was an infamous scamp, a New York clothing dealer from Chatham street, descended, doubtless, from one of the oldest families of Palestine, but *not* a Persian nor son of a Persian. Great was the chagrin of the clergy on the discovery of the fraud which had been perpetrated upon them, and they made energetic but unsuccessful efforts to hush the matter up, but it has become public at last. It is supposed that he raised from $5,000 to $10,000 all told; and, what is worse, got away with it. Where he went to, heaven only knows, but he disappeared as suddenly as the meteor sheet dats athwart the sky, and is seen no more of men.
